# EQUITONE [tectiva]

EQUITONE [tectiva] is a through-coloured facade material, characterised by a sanded surface and naturally occurring hues within the material.

Every tectiva panel is unique, strongly expressing the raw texture of the core eternit fibre cement material. The material comes in a large panel size and can be transformed into any size or shape in the workshop or on site. No matter what design options you explore, EQUITONE's through-coloured nature guarantees crisp, monolithic details.

T x W x L mm	Weight kg/m <sup>2</sup>
8 x 1195 x 2500	14,5
8 x 1195 x 3050	14,5
8 x 1220 x 2500	14,5
